1 January - 30 September 2023 REPORTING PERIOD

REPORT OF THE MANAGEMENT

TYPE OF OPERATIONS

LINEN is engaged in global trade of animal by-products and providing a tailored agriproduct supply chain for market leaders. LINEN and its Group provides a seamless, full-cycle, door-to-door trading, and delivery service. Company is a bridge between producers of raw materials and producers of animal feeds, biofuels, and human food. Almost half of the volume in meat production is considered waste. Through reprocessing, animal protein meal and animal fats are created. These products can be further used as ingredients in animal feed, human food, organic fertilizers, and cosmetics. These ingredients constitute the main part of traded goods of LINEN. The company has a global reach with deep knowledge of these ingredients with experience of almost 30 years and clients in 46 markets. LINEN is a supplier to some of the world's largest animal feed producers and LINEN is one of the largest exporters of these ingredients to developing countries from Europe.

PERFORMANCE OF THE COMPANY DURING THE Q3 OF 2023

Q3 2023 was mainly affected by a significant decrease in purchase and sales prices of certain commodities. LINEN raised its sales volumes in metric tons as well as net turnover which has increased by 28% comparing year 2022 and at the same time increased its market share and became one of Top3 players in Europe market. Despite the drop in Gross margin numbers, LINEN management believes that this was the best decision for future Company development and relationship strengthen with its cooperation partners on the procurement side.

Beside the core business activities, LINEN is continuing to scale up its new operations with sustainable fuels and is planning to start the first collection plants in East Africa region. "We have learned our lessons in international trade by supplying used cooking oils from Asia to biggest European biofuel producers in Netherlands, United Kingdom and Italy. We are ready to take the next challenge and therefor planning invest in our own collection subsidiaries. We strongly believe in Green Policy of Europe and sustainability is one of our core elements." says Zane Kulikovska, CEO

Taken into account market situation and company's slower but stable growth, in order to simplify capital structure and reduce external financing costs, LINEN management team has decided on early redemption on of the outstanding bonds. "We are highly appreciating the bondholders trust in us during this journey".
